

Grateful Clients Share Their Stories...

SCA sends out response forms to all clients who receive veterinary care for their ailing cats. These are just some of them.....

From DL: *Two times SCA has helped me. I am so grateful for you service or my baby SAM may have passed on. I will try to donate some money this summer for ALL you have done for us.*

From KK: *Tuffy showed up under our porch on a Friday afternoon in late September. She had a torn and bloody tail and worms. We knew that she would probably die if we didn't help her. My daughter has always wanted a cat but I am finishing my master's degree and money is tight. Stray Cat alliance helped me afford to keep Tuffy.*

From JN: *Natas was a feral cat we rescued. She was infested from head to tail with every conceivable parasite known to man. We cleaned her up and she has since become the "Queen" and most loved of all our adoptees. When she got sick we were so very afraid we were going to lose her, but thanks to SCA the doctor has given her a 95% chance instead of the 10% she started with. Your organization saved one of our beloved family members.*

From AA: *I wasn't looking to adopt a cat, but Rohawn came*

into my life and adopted me. He was very skinny, malnourished, but had a very apparent strong spirit. Soon after I adopted him he began fighting with neighborhood cats and the neighbors came a-knocking! I was financially stressed, but SCA and Cat Care Ltd. came to the rescue assisting me with wound care and neutering him. What a wonderful organization - to recognize the needs of stray cats in our community. Rohawn and I will be forever grateful.

EXTRA SPECIAL THANKS to

Cumulus Broadcasting and Robert Hermann for donating time and talent to a PSA for Stray Cat Alliance. This one-minute announcement was on 18 times a day for 2 months and really had a positive impact on getting cats altered and receiving donations.

Thanks to Our Volunteers!!

Many, many thanks to our volunteer phone liners! Georgia Nissen who really helped with the hundreds of Spay/Day calls. Lora Stoner, Erin Weatherly, Sandy Thomas, and Adrienne Valdez answer the phones for us throughout the week.

Thanks to John Welch - our transporter - he has helped so many cat caregivers and their cats get to the vet to be altered or helped with medical care.

SCA "Gateway" to Involvement

When Victoria Williams walked into an SCA adoption event several years ago, she only meant to make a donation. Somehow she ended up giving someone her name, and soon she was approached by others in the animal welfare community. Today, she volunteers at FCCO clinics, Pro-Bone-O, SCA, and was recently spotted running the "Wheel of Fortune" at WAG's "Casino Night Event"...all because of her initial contact with SCA!

Do Something Nice for Yourself!

Reflexology is a therapeutic foot massage that activates the healing powers of the body; it reduces stress, promotes deep relaxation, cleanses the body of toxins and impurities, revitalizes energy, improves circulation, and balances the whole body system.

Susan Rogers, LMT has generously agreed to provide a one-hour session of reflexology to folks who contribute \$40 or more to SCA. Your donation will remain tax-deductible. This is a great opportunity for you to do something wonderful for yourself (or someone you love) and help the kitties, too!

Stray Cat Alliance Our Mission

The SCA is dedicated to: providing low-income cat caregivers and guardians with support, advice, and financial assistance for cat food, spay/neuter services, and veterinary care; assisting people who care for feral cat colonies; encouraging people to feed, spay and neuter and care for stray cats in their area; educating the public about the importance of spaying and neutering companion animals; preventing cruelty, abuse and neglect of cats; serving as a resource to other animal welfare organizations.
